# MAINTENANCE & REPAIR

**Our spray paint range has had a complete overhaul, and the result is a line-up engineered to drive sales and simplify your category in equal measure.**

We've expanded the range to deliver comprehensive coverage across colours, finishes and specialist applications — so whether your customers are touching up bodywork, refreshing garden furniture or tackling a creative project, you'll have the right can on the shelf. One supplier, one cohesive range, no gaps.

Every product ships in retail-ready POS boxes designed to land straight onto the shelf or stand. Bold, branded and built to catch the eye, they turn a passive category into an impulse purchase — no unpacking, no fixturing headaches, just open, position, and watch the range work.

## Universal Rear Blades

Replacing both integral plastic as well as flat rear blades, the programme offers like-for-like styling with the OE wiper. OE plastic blades are replaced by an OE style plastic blade, sleekly designed to closely replicate the original. OE flat blades are replaced by a flat blade, offering the discreet styling and premium beam technology that the vehicle had when it was new. Whilst you benefit from improved coverage from a reduced SKU count, your customers still maintain original styling and performance on their vehicle.

Both plastic and flat blade styles utilise a simple multi-fit system with a maximum of 5 loose connectors - meaning you can replace 32 "exact fit" style rear blades with just 9 SKU's!

Absorbed: 24g Rating: ★★★★★ Reusable? Yes

THE Simply won because it does everything well. The paperback-sized bag holds a hefty 350g of silica grains, which absorbed a reasonable 24g of moisture, but still had more capacity. It's easy to tell when it is saturated, because there's an indicator spot that turns from blue to pink. Microwaving for six minutes or a night in an airing cupboard will regenerate it, ready for use the next day.

## SUPER CHARGE

## QC 3.0 USB

## WHAT IS QUALCOMM® QUICK CHARGE™ TECHNOLOGY?

Fast charging technologies are becoming increasingly common, and Quick Charge is one of the most frequently used. Qualcomm® Quick Charge technology powers your devices faster than conventional charging, allowing you to spend less time connected to outlets.

FAST  
CHARGE

\*Charge up to 4 times faster than conventional 5W chargers. Based on Qualcomm® Quick Charge™ internal tests charging a 2750mAh fast charge battery (1.5C charge rate) and using the maximum power for a thermal limit of 40°C for all charging implementations. Charge time based on 0% to 50% (August 2015).

## THE BENEFITS OF QUICK CHARGE

When paired with compatible devices, a Quick Charge-enabled charger delivers more power, allowing the connected device to charge faster. As one of the most widely used of the fast charging technologies, Quick Charge is already in many of your favorite smartphones. If your smartphone is Quick Charge 3.0-compatible, you can charge up to 80% in just 35 minutes.\*

To futureproof your chargers, each new Quick Charge generation is backwards compatible, meaning it will work with the generations that came before.

**WORLD'S  
STRONGEST  
BOND**

Founded in Texas in 1969, J-B Weld was engineered as a 'cold-weld' alternative to traditional torch welding. The two-part epoxy of adhesive and setting agent creates a 'tougher than steel' bond across a huge variety of surfaces and under extreme conditions.

50 years on and J-B Weld is trusted by trade professionals in over 30 countries to provide the world's strongest bond for your projects.

# Stoner Car Care®

# Invisible Glass®

In 1942 chemist Paul Stoner used his expertise to help industrial customers solve their most difficult problems, including releasing tyres from moulds. Today, still family owned, Stoner Inc. develops and manufactures high-performance automotive appearance products for auto enthusiasts and the professional detailing market.

Its two brands, Stoner Car Care and Invisible Glass, are manufactured in house to such high standards that it was awarded the Malcolm Baldrige National Quality Award for performance and quality excellence, and globally the company is recognized for world-class customer service and technical support.

## CLEAN & WASH

### STONER CAR CARE

Stoner Car Care is one of America's top car care and appearance brands. These cleaning products, protective waxes & finishes are well known and highly regarded throughout the professional detailing industry as products that outperform the competition and produce great results.

#### TARMINATOR TAR & SAP REMOVER

Tarminator easily breaks down the complex molecules found in tar, sap and asphalt. Quickly dissolves and loosens tar, sap and asphalt from auto paint. Cleans painted surfaces in preparation for waxing. Strips off wax and silicones but remains clear-coat safe.

## HIGH ENDURANCE WIPER BLADES DESIGNED TO LAST UP TO 4X LONGER!\*

The durability of silicone rubber with the protective power of ceramic:  
**Meet new Ceramic Silicone™ wiper blades from Invisible Glass!**

The **exclusive ceramic coating** used in Ceramic Silicone™ helps to protect the wiper blade rubber from harmful UV & ozone rays, as well as protecting the rubber edge from premature wear – resulting in a wiper blade that **lasts up to 4x longer\*** than standard blades!

The durable silicone rubber element not only performs in extreme temperatures, but also applies a rain repellent coating to the windshield, repelling water from the glass and allowing it to simply bead off.

**WATER REPELLENT COATING**

**TESTED TO 2M WIPES**

**CERAMIC COATED SILICONE RUBBER**

Ceramic Silicone™ wiper blades are constructed with a state-of-the-art beam blade design, ensuring maximum windscreen contact & even pressure distribution along the complete blade length. The integrated asymmetrical WindBeater™ airfoil resists buffeting and wiper lift even in windy conditions and at high speeds.

**Available in lengths 14" – 28" and suitable for all main wiper arm types.**

\*Compared to OE standard (SAE J 903) of 500,000 wipe cycles

Independently tested by ARDL

# AUTOBAR®

# TECNIKS

Between them, the **Tecniks** and **Autobar** brands carry thousands of bulbs, fuses, connectors, switches, cables, battery fittings, screws, washers, nuts and bolts, hose clips, number plate fittings, fuel pipes, exhaust clamps, trim clips and so on to serve the car repair market.

JRP's original own brand Tekniks, now over 40 years old, continues to provide a wide range of the highest selling consumables all in bulk packs.

This is complimented by the Autobar range, owned by JRP since 2019, which delivers these products in single or small quantity consumer packs for retailers.

With products packaged in both the UK and Far East for proactive stock reliability, and an Autobar rack program of fast selling high profit parts, the Autobar and Tekniks brands are the perfect compliment to your existing ranges.

## The Autobar Retail Programme

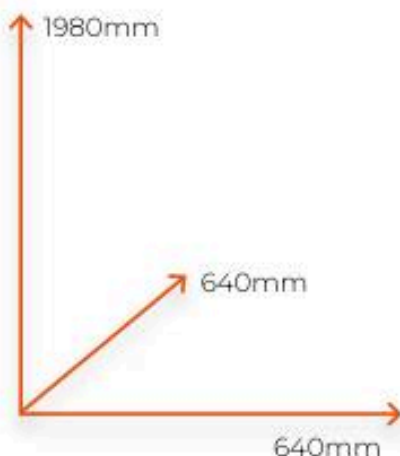

The Autobar retail programme is for all retailers to ensure their available floor space is producing maximum sales at the best margins. Items that many shops keep "below the counter" are given a new lease of life on tailored high impact stands that will increase both the sales ratio and the achievable sales value of individual items.

Encourage customer self-selection from a pre packed well placed display stand that commands a higher ticket price.

## WELLSEAL

## WELLSEAL JOINTING COMPOUND

The complete answer to sealing problems on machined faces. Non-flammable, has easy partability and is non-hardening. Formulated to give the best possible sealing performance under a wide variety of conditions.

## Features and Benefits:

- Can be used to seal threaded connections as well as flat-faced joints.
- Can be used with or without a gasket, depending upon the design of the assembly.
- Highly resistant to the majority of commonly used fuels, lubricants and coolants and is non-corrosive and free from abrasive fillers.

## HYBRID WIPER BLADES

- Combines performance of a traditional wiper blade with the aerodynamic properties of a jointless wiper blade
- Suitable for both OE replacement and traditional upgrade

## JOINTLESS EXACT FIT BLADES

Blades exact fit beam blades are a direct fit replacement for the jointless blades found as standard on most modern cars. Whereas traditional metal blades have 4 - 8 pressure points onto the screen,

jointless blades deliver smooth consistent pressure across the whole length of the blade and incorporate a smooth, sleek spoiler to eliminate wind lift and noise at high speeds.

### Suitable For Fitment To Both RHD & LHD Applications
